### THE FIELD OF MONTEREY.

The sweet church bells are pealing out  
A chorus wild and free,  
And everything rejoicing  
For the glorious victory.  
But bitter tears are gushing forth  
For the gallant and the gay,  
Who now in death are sleeping  
On the field of Monterey.

When spring was here, with opening flowers  
And I the proud May queen,  
And all the young and gay were met,  
To dance upon the green,  
The noblest and the bravest  
Was by my side that day,  
Who now in death is sleeping  
On the field of Monterey.

The flowers of spring are fading now,  
The woods are bare and cold,  
The persimmon's cheek is flushing  
And the poplar shines in gold;  
But he in earliest manhood  
Has sadly passed away,  
And now in death is sleeping  
On the field of Monterey.

The bugles swell their wildest notes,  
And loud the cannons roar,  
And muller peal the sweet church bells,  
For holy rest no more;  
But lonely hearts are beating  
Upon this glorious day,  
For the loved in death are sleeping  
On the field of Monterey.

### POOR OLD BACHELORS.—The Albany

Knickerbocker says that the bill before the Legislature of New York to tax old bachelors, has called out the following remarks from a lady.

She hopes it will be amended and passed. Now there are many Bachelors who lead their lonely life, not from choice, but from necessity. Such poor wretches should not be taxed. Often have they seen bright eyes, and lovely arms, and often have they knelt down and worshipped, but the relentless fair as often have given them (to use courtling vernacular) the mitten. It is not their fault, therefore, if they are sighing out their lives in a state of single unblestness.

There is another sort which should be exempt, to wit: those whose hearts are filled with the generous impulses of a kindly nature, and are ever ready to perform all the offices of friendship, with a singleness of purpose, honorable alike for its utter want of selfishness, and for its pure humanity.

True these bachelors are few and far between—they are green spots in the deserts of Bachelordom—they never marry, because to confine their good deeds to a wife and family would be robbing the world of the felicity attendant upon their more enlarged sphere of action. It would be outrageous to tax these generous fellows. But there is another kind yet. The cross grained, crabbed bachelor, whose soul seems small enough to be confined to the shell of a touch-me not; whose love for lucre, and hatred for the "gentle sex," are the measures of his acts. He is nobody's dog, and should be kicked by every passer by. A tax upon society, upon good nature, everything, he should be taxed well in this world, and we don't know but he ought to be denied the benefit of clergy, when he comes to quit a world which he has not benefited or been benefited by. We hope the Legislature will so amend the bill, as to make the exemption suggested above.

Doxy Goon.—Instead of showing our love to our country by engaging eagerly in the strife of parties, let us choose to signalize it rather by beneficence, and by an exemplary discharge of the duties of private life under the persuasion that man, in the final issue of things, will be seen to have been the best patriot, who is the best Christian. He who diffuses the most happiness, and mitigates the most distress within his own circle, is undoubtedly the best friend to his country and the world, since nothing more is necessary than for all men to imitate his conduct, to make the greatest part of the misery of the world cease in a moment. While the passion then of some is to shine, or some to govern, and others to accommodate, let us great passion alone, inflame our breasts, the passion which reason ratifies, which conscience approves, which heaven inspires, that of being and doing good.—Robert Hall

Love says Miss Dorothy Mages is a tangero's covey—may I tell you? I never did—nor ever will. And here she took another pinch

TUESDAY, OCTOBER 26, 1847.

BY O. F. JACKSON, 91-THAMES ST.

The New Orleans Bulletin gives the following sketch of what Vera Cruz was in its palmy days. Much of this information was obtained directly from the official records at Havana, which contain a full detail of the commercial transactions of the different dependencies of old Spain. The subjoined sketch of the commerce of Vera Cruz may be depended upon as authentic up to the date given, viz: the year 1810:

"The exports of specie from Vera Cruz that year, amounted to a total of \$46,774,240; of which \$21,774,240, was by individual units, and \$25,000,000, by the Government authorities; and the coinage for the same year amounted to the enormous sum of \$26,000,000."

That same year there were, on the road between Mexico and Vera Cruz, the vast number of over 54,000 mules engaged in the transport of the different products of the country, of which specie formed the principal item. There is one article of export, however, particularly worthy of note, viz. that to Havana alone 27,000 barrels of Mexican ground flour found its way, and was there used in preference to that received from the mother country; and it appears that had not the course of trade been changed by the troubles of the two nations, Cuba, to within the last two years, would have drawn her main supply of breadstuffs from Vera Cruz.

The imports of 1810 amounted to the value of \$30,430,500, and the exports to \$28,277,533. This trade, exclusive of Government vessels, was carried on in the arrivals of 291 square rigged craft, and in the clearances of 239 of the same kind. The amount and value of goods entered and cleared on Government arrivals are not included in this statement, but they of course would swell this aggregate to a very considerable degree.

The three commissioned officers in Gen. Scott's army who belong in this town, or whose families reside here, Capt. Casey, Capt. Mason, and Lieut. Stevens, of the Engineer Corps, were wounded in the last engagement; the two latter seriously, but we hope not dangerously. They were all alumni of the West Point Academy.

Lieut. A. P. Rogers, another graduate of that Academy, nephew of Commodore Perry, and born we believe in this town, was killed in the same battle.

THE JUNK.—Ten of the hands belonging on board the Junk, who had received about a month's wages in advance, took a boat from her yesterday morning and came ashore, landing at Long Wharf, and immediately made tracks out of town. Officer Smith was put on track of them, and succeeded in arresting two of them, who are now locked up. The others took "leg bail for security" and there whereabouts has not, as yet, been ascertained.

MARRIAGE.—Judge Strong, during a recent trial at the Queen's County Circuit, N. Y., decided that a marriage was legal even if no witnesses were present at the ceremony; and that no other testimony is necessary for its proof than such as would be required to sustain any other civil contract.

Of course, then, a man can marry himself always providing he can find a girl that will have him.

RE-BUILDING OF PITTSBURGH.—The Pittsburgh Gazette publishes a table showing the number of buildings erected in that city, since the great fire in April, 1845. The number is 509, and comprises all descriptions of buildings, from first class hotels, warehouses, stores and manufactories, to ordinary private dwellings, all of which the Gazette states, are much larger, more commodious, and better adapted to business purposes, than those destroyed by the fire. This is a wonderful resuscitation—two years since one-half of the city was in ruins, now scarcely a trace of the devastation is to be seen.

The oil contract for supplying the Government with 17,000,000 gallons, says the New Bedford Mercury, (one-third winter and two-thirds fall) oil, was closed at the Custom House in Boston, in favor of Messrs. Hanna & Fisher, of Boston, at 109 cents per gallon for spring and 115 cents per gallon for winter oil to be delivered in December.

## A PROCLAMATION,

BY

ELISHA HARRIS.

Governor of the State of Rhode Island and Providence Plantations.

In conformity with ancient and venerated usage, I hereby appoint THURSDAY, the TWENTY-FIFTH DAY OF NOVEMBER NEXT, as a day of Public Thanksgiving and Praise; and I recommend to the good people of the State, that on that day, abstaining from their usual avocations, they assemble in the Temple and around the altar consecrated to the worship of God, the Father of all, and forgetting the cares of life, devote its hours to a grateful recollection of the blessings which have crowned the passing year;—in that we have been so highly favored in the health of our towns and villages—in the success of individual and collective enterprise—in the harvest which has been garnered—in the diffusion of public and private instruction—and, as I trust, in a growing reverence for the principle of morality and religion.

And when with united voices and exulting hearts we remember the multiplied gifts of a benignant Father, let us not be forgetful of our manifold offences, but humbly acknowledge, and ask His forgiveness thereof: And especially while we lament the causes and calamities of the war in which our country is unhappily involved with a neighboring Republic, let us implore our Heavenly Father that He would stay the arm of destruction, and among the elements of strife diffuse the subduing influences of Peace.

Finally, in all seasons, and under all circumstances, whether prosperous or adverse let us feel our dependence upon God,—cultivate a spirit of obedience to His Laws and gratitude for His Bounties.

Given under my hand and the seal of said State, this twentieth day of October, 1847, in the year of our Lord one thousand eight hundred and forty-seven, and of the Independence the seventy-second.

ELISHA HARRIS.

By his Excellency the Governor.  
HENRY BOWEN, Sec'y of State.

SOCIAL AFFECTION.—Society has been aptly compared to a heap of embers, which when separated, soon languish, darken, and expire; but, if placed together, glow with a ruddy and intense heat—a just emblem of the strength, happiness, and the security derived from the union of mankind. The savage, who never knew the blessings of combination, and he who quits society from apathy or misanthropic spleen, are like the separated embers, dark, dead, useless; they neither give nor receive heat, neither loved nor are beloved. To what acts of heroism and virtue, in every age or nation, has not the impetus of affection given rise! To what gloomy misery, despair, and even suicide, has not the desertion of society led! How often in the busy haunts of men are all our noblest and gentlest virtues called forth! And how in the bosom of the recluse do all the soft emotion languish and grow faint!

WILL IT BE DONE?—A celebrated steamboat builder at New York has just concluded a contract to build a steamboat four hundred feet long! He guarantees that the boat will attain an average speed of twenty five miles per hour!

The New Orleans National says that General Taylor may be expected there in two weeks, from Monterey.

MISTAKING HIS VOCATION.—The Worcester Telegraph says that a dentist in the land of steady habits has been detected in going too tenderly to work at the mouths of some of his fair customers. His operations, we suppose, were outside instead of inside the mouth.

MEXICAN WOMEN.—It is thought to be an extraordinary accomplishment for a Mexican lady, in many parts of that country, to be able to write her own name. It is in fact recorded by many as a dangerous accomplishment, and not one out of two thousand can do it.

What ugly, carotly-headed little brat is that, madame? Do you know his name?

Why—yes—that is my youngest son! "You don't say so—indeed!—why what a dear, sweet, little dore-eyed cherub he is, to be sure!" This is the fashionable, scientific way of backing "right square out."

MINUTE ANIMALS.—Near Berlin, in a slatey strata, are discovered the remains of infinitely small animalcules. In round numbers, about 23,000,000 would make up a cubic line, and would, in fact, be contained in it. There are 1728 cubic lines in a cubic inch; and therefore a cubic inch would contain, on an average, about 51,000,000,000 of these animals. On weighing a cubic of this mass, I found it to be 220 grains. Of the 41,000,000,000 of animals 178,000,000 go to a grain; or the siliceous shield of each animalcule weighs about one hundred and eighty-seven millionth part of a grain. Such is the statement of Ehrenberg, which naturally suggests to the reflection of the French philosopher, that if the Almighty is great in great things, he is still more so in those which are minute; and furnishes additional data for the well known moral argument of the theologian, derived from a comparison of the telescope and microscope. The one led me to see a system in every atom. The one taught me that this almighty globe, with the whole burden of its people, and of its countries, is but a grain of sand on the high field of immensity. The other teaches me, that every grain of sand may harbor within it the tribes and families of a busy population. The one told me of the insignificance of the world I tread upon. The other redeems it from all insignificance.

The Albany Knickerbocker says that the emblems on the Monument of Laurens, the inventor of printing, consist of a wreathed snake and a lamp—signifying that an editor must not only sting people, but "smoke" them.

The Post Office law requires that the list of letters should be published in THE PAPER HAVING THE LARGEST CIRCULATION. They are published in the Daily News, by authority.

The object in advertising merchandise is to let the public know that the advertiser has got such and such article. Those wishing to inform the public as to what they keep to sell would do well to advertise in the News.

## UNITED STATES HOTEL.

On Pearl, Fuller and Water sts., New York, BY H. JOHNSON.

THIS is one of the largest and best kept Hotels in the city of New York. Board \$1.50 per day. Its location is particularly convenient for business men, and Mr. Johnson, the popular and gentlemanly landlord, makes the comfort of his guests a constant study.

Boston, Dec. 10, 1845.

This may certify that I have used Pool's Lotion, (as prepared by Messrs. Ames and Olds) for Scalds, Burns, Bruises, &c., and am happy to say that I believe it is all it purports to be.

JOSEPH KENDALL,

at H. N. Hooper & Co., Commercial St. I can cheerfully testify to the above as I have known its good effects for two years.

Sold in this town by Wm. H. Greene, and M. Freeborn & Co. Jan. 8.

[Extract of a letter from Dr. Williams of Vt.] Gentlemen—I will thank you to send me two dozen more of your Sarsaparilla and Tomato Bitters. I have used it with great success in four cases of dyspepsia, curing each of them in an almost incredible short time; likewise one case of scrofulous humor and one of jaundice. I consider it a valuable compound, and must say I have used it with the happiest effects. Should I like to have it as soon as convenient. One of the cases of dyspepsia was a gentleman who had suffered a long time, and had been to the Springs for two seasons.

A. Boyden, Esq., of Cambridge, cured of the dyspepsia of a year standing, after trying a hundred remedies without the least effect.

For sale by R. J. TAYLOR.

From the Boston Daily Whig, of Feb. 12, 1846. HYPERION FLUID.—Those who wish for a valuable preparation for the hair, are referred to Mr. Bogle's advertisement in another column. His Hyperion Fluid, it is supposed, will soon supersede most fluids now in use for the hair, as it is a very superior quality.

## JONES'S SOAP.

Ladies in the country and watering places, See how the sun has burnt your faces! Look at your necks—how yellow, dark with tan! Why, 'twill repulse the love of any man! Those freckles, too, you know they'd quickly fly if Jones's Soap you'd use; come once—do try—it costs but fifty cents, and I am told it's worth, ay, doubly worth, its weight in gold.

Persons who have had no faith in it, have been astounded at the wonderful effect of Jones's—that is, the genuine Jones's Soap—in purifying the skin. For sale by Dr. R. J. Taylor.

## MADAME DE BONNEVILLE'S

Office hours for consultations for the treatment of DISEASES BY MAGNETISM, AND HYDROPATHY, from 12 o'clock to 2 o'clock p. m., at Union Hall, rear of the Universalist Church, Westminster st. At PROFESSOR DE BONNEVILLE'S, at 8 o'clock a. m. June 10, 3 m.

The most prolific source of disease is undoubtedly impurity of blood. And to no people are more subject than those of this country, from the plentiful and comparatively luxurious diet in which their prosperity enables them to indulge. To purify the blood, and relieve bowels from the unhealthy state produced by that impurity, Brown's Sarsaparilla and Tomato Bitters are extremely well calculated. They will eradicate those impure humors which are the source of uneasiness to the system, and occasion such deformity when they make their appearance exteriorly. The demand for the above Bitters is rapidly increasing in all places where they have been sold, and there is scarcely a day passes but we have some ordered by our first physicians, for dyspepsia, indigestion, weakness of the stomach and limbs, constiveness, general debility, rheumatism, &c. In fact there is not the least doubt but they are the best alternative now in use for a disordered system. The vegetables that these Bitters are mainly composed of are too well known to have the least said in their favor. Remember in all cases when you purchase Brown's Sarsaparilla and Tomato Bitters, to see that the directions are signed by the proprietor, F. BROWN, in his hand-writing, without which none are genuine. For sale by R. J. TAYLOR.

SAND'S SARSAPARILLA.—Thousands of persons are heirs of scrofula; they come into the world with the taint in their blood, which, by the time they reach maturity, develops itself in some form or other. All such persons should keep a stock of this preparation by them, if at a distance from any town or city where it may be procured, so should they wait for the disease to show itself in ulcers or eruptions but should keep it down by frequent resort to this unrivaled antiseptic. The seeds of scrofula, though hereditary in the blood, will not germinate while that fluid is under the influence of this powerful detergent, which, if administered at intervals, will keep down the hereditary tendency through life. As "prevention is better than cure," we recommend all who have a predisposition, hereditary or otherwise to ulcerous or eruptive diseases, to go through a course of this medicine at least every Spring and Fall.

Prepared and sold by A. B. & D. SANDS, Druggists, 100 Fulton st. N. Y.

Sold also by Dr. R. R. Hazard and R. J. Taylor Newport, by J. Russell, Fall River, by C. Dyer.

To enable Mankind to live of Old Age without Disease.—The public may not be aware that the Rev. B. Hibbard's Vegetable Pills are the very best Family Medicine extant; perfectly reliable in every emergency. No one can foresee the moment when they or their children may be attacked. IF Rev. B. HUBBARD'S Vegetable and Anti-

Bilious FAMILY PILLS are not found to be

the most convenient, the best physic you ever tried,

and fully equal to any recommendation of them,—

if you do not find that one of these pills does more

good than four to six of any other kind, every

agent stands ready to receive the empty boxes

and refund the money.

These Pills are recommended as being without

an equal in all Bilious attacks of the

Liver, the Lungs, Stomach, or Bowels, caused by

taking cold, or obstructed perspiration. They

carry off the bile, cleanse the stomach and bowels,

and re-open the closed pores of the body, thereby

letting out the insensible perspiration through its

accustomed channels, and relieving at once the in-

ternal organs. Also in old chronic affections, as

Dyspepsia, Sick Headache, Rheumatism, &c. —

Mind the Directions, which go with each box.

Every agent has circulars of these Pills to give

away.

Half a Pill is the usual dose, though some re-

quire One Pill, or even more. Children of one

year and over, one-quarter of a pill, of 7 years and

over, half a pill. These Pills are purely VEGETA-

BLE, and may be taken under all circumstances,

without regard to drink or diet.

The great and only Successful  
Remedy for the cure of Con-  
sumption,

IS Dr. E. W. Vandersmith's INDIAN COUGH  
BALM AND LUNG BALM.

READ—  
Disease of the Lungs and Throat cured.  
White Plains, April 29, 1847.

This is to certify that I have been afflicted for  
five years with a cough, pain in the chest, night  
sweats, difficulty in breathing, etc., and I also  
expectorated a large quantity of frothy matter and  
blood, from which I was reduced to a perfect  
skeleton, my throat was very much ulcerated. I  
had lunar caustic applied to my throat twice a  
week, but received no benefit; I have used one  
hundred different kinds of Patent Medicines, re-  
commended by my friends, but all to no purpose.  
A friend of mine, Mr. Willett, whose lungs had  
been affected for two years past, was cured by Dr.  
Vandersmith's Medicine. He insisted upon my  
trying Dr. V., and I did so. After I had used his  
medicine 15 days, I expectorated large quantities  
of yellow frothy matter, my chest expanded, and  
my difficulty in breathing subsided. I persevered  
with his medicine, and the result has been, I am  
perfectly cured of all my sickness. I recommend  
every consumptive to try Dr. V.'s medicine, I am  
confident it will cure you. Your sincere friend,  
EDWARD C. THOMPSON.

Sworn before me this 21st day of April, 1847.

Information of the Lungs.

New York, June 19, 1847.

Dr. Vandersmith—I have been subject to a  
cough, pain in the chest, difficulty of breathing,  
etc., for many years past. About four months  
ago I took a severe cold, which settled on my  
lungs. I was unable to attend to my business  
during the day. I would have dreadful coughing  
fits, that I thought it was impossible for me to  
survive unless I could get relief. The excessive  
night sweats had reduced my whole body to a  
skeleton. I expectorated white frothy mucus,  
in fact, should I give the full particulars of my  
case, it would be almost incredible. I was recom-  
mended to try Dr. Vandersmith's Indian Cough  
Balm and Lung Balm. I consented; when I  
used it about one week, my cough decreased  
considerably, which gave me great hopes. I con-  
tinued with the medicine according to directions,  
and the result has been that I am restored to health,  
a blessing that I have not enjoyed for years, until  
the present. I sincerely believe had I not made  
use of Dr. Vandersmith's invaluable medicine,  
that I would be mauling in the silent grave.  
Therefore I believe that I am doing nothing but  
what is justice, in stating the above facts, so that  
you may show it to all the afflicted who may call  
upon you to administer to them. I shall be  
pleased at any time to converse with the afflicted  
who call upon me. Your grateful patient and  
friend,  
JAMES B. HENDERSON.

Consumption.  
Staten Island, June 10, 1847.

Dear Sir—I take great pleasure in giving you  
my certificate, last December I was attacked with  
a severe cough, pain in my left side, loss of ap-  
petite, and continual raising of white and yellow mu-  
cus. Some days I raised a half-pint of mucus,  
streaked with blood. I have been under the treat-  
ment of a dozen physicians, I was recommended  
by Dr. Mitchell of Philadelphia, to use a Breathing  
tube, I purchased one, I only made use of it one  
week, it was the cause of bringing on a hemor-  
rhage of the lungs, which reduced me so much that  
I was unable to sit up, my voice was entirely de-  
stroyed, it was difficult for persons to understand  
me. I saw Dr. Vandersmith's Medicine recom-  
mended very strongly by a patient whom he had  
cured. I sent for half a dozen bottles, I received  
great benefit from that, which induced me to pur-  
chase a dozen bottles, I took according to the di-  
rections, and it cured me perfectly sound.

Yours, &c. ROBERT WILLSEY.

SAFE, CHEAP AND EFFECTIVE.  
This medicine makes no pretensions to miracu-  
lous powers, the raising of the dead, or to im-  
mense and astounding sales daily and hourly, af-  
ter the most approved method of the times; but  
bases all its claims upon plain common sense prin-  
ciples, as a simple and to nature in restoring the  
human system to its proper tone and action, when  
by carelessness or unavoidable circumstances it has  
become deranged or debilitated, and asks simply a  
faithful trial as a test of its curative properties.  
During the last twenty years it has worked its  
way into extensive use, wholly upon its own merits,  
by commutation from individual to individual,  
not having been advertised for more than twelve  
years till within the past few months—save occa-  
sionally in a journal of which the present prop-  
rietor is Editor. The increasing demand, however,  
has measurably compelled greater attention to its  
business, and agencies are now being established  
throughout the country.

A faithful trial of a half dollar or dollar pack-  
age is almost certain to secure use in every family  
where it is introduced, where medicine is needed.  
The undersigned has used it in his own family for  
more than fifteen years—has knowledge of its ap-  
proved use in many others, (for periods varying  
from months to fifteen or sixteen years,) as their  
only medicine, and knows it to be valuable in most  
of the complaints incident to the human system.  
But a long or extravagant commendation is not  
designed or needed here. Ten thousand mere as-  
sertions in its favor will not make it valuable, or  
satisfy reasonable persons without a trial; for the  
proof, after all, must lie in the use of it. Try it,  
then. Read, try, and then judge.

Bogto's Hyperion Fluid; Or Vegetable Hair  
Composition.

THE subscriber has been induced to bring this  
article before the public, at the request of his nu-  
merous customers, among whom are physicians  
and citizens of the first respectability, who have  
adopted its use in their families, and wish others to  
participate in its advantages.

The Hyperion is composed of vegetable ingredi-  
ents, the secret of compounding and blending which  
is known solely to the subscriber. It is an arti-  
cle in which a cleansing and purifying wash is  
beautifully blended with a most delicate, silky and  
glossy moisture never before attained, yet free of  
animal grease or essential oils. It cleanses the pores  
of the skin, causes a healthy action in the blood  
vessels, nerves, &c., which feed the hair, thereby  
preventing BALDNESS AND GREY HAIR.

It entirely frees the skin from Scurf, Dandruff,  
and other cutaneous diseases, disposes the hair to  
curl, and changes the harshest hair into the most  
soft, glossy, and healthy state, also imparts to it  
a darker color, and the free use of it, both on the  
skin and hair, in a most healthy and luxuriant  
state until the latest period of life.

Ladies will find the Hyperion a great addition to  
the toilet, both on account of its delicacy and agree-  
able perfume, and the great facilities it affords in  
dressing the hair, which, when moist with the fluid,  
can be dressed in any required form, so as to  
preserve its place, whether plain or in curls.  
When used on children's heads, it lays the foun-  
dation of a good head of hair.

TO THE AFFLICTED.  
DR. BANNING'S PATENT LACE!  
An immediate Relief to Incurable Consumption, the  
Bronchitis of Public Speakers, Irritation  
of the Heart, Nerves, and Spinal Weak-  
ness, Piles, Protrusion, and Diseases  
of Women, without Medicine.

THIS instrument has been examined by Drs.  
Mott, Rodgers, Francis, and Gibson of New  
York, the Faculty of Pittsburgh, H. Ward, New  
Haven and Middletown, and has obtained for itself  
their favorable testimony. The following will  
show what kind of testimony might be produced  
in many cases:  
Middletown, June, 26th, 1843.

Dr. Boardman,  
Sir—in answer to your inquiry respecting my  
case, I will merely say, that I have been sick since  
I strained my breast and loins in May, 1836, from  
that time continued to grow worse, when in the  
fall of '39, I abandoned business, and have not  
done any thing since. I suppose from all I could  
learn about my case—frequently raising blood,  
coughing very hard and expectorating profusely,  
deriving no benefit from my physicians, and all  
medicines recommended to me, that my case was  
hopeless. Last winter my brother told me he had  
heard a good account of Dr. Banning's Lace in  
such cases, and was anxious that I should try it;  
accordingly I procured one from you, and since I  
began to wear it, my breathing, which was very  
short and laborious, has become easy and natural;  
the pain and fluttering or palpitation of the heart  
has subsided; cough and expectoration greatly  
lessened, my limbs which were exceedingly pain-  
ful have become useful, so that I can walk com-  
fortably. I am able to shave myself with comfort,  
which for many years I have not been able to do.  
The pills, which have troubled me for nine years,  
are nearly eradicated. I work some in the garden,  
and am able to ride 4 miles at once with pleasure  
and benefit. Yours, &c. WM. RANKIN.

Dr. G. M. Boardman,  
Middletown, June 23, 1843.

Dr. Boardman,  
Dear Sir—in answer to your inquiries re-  
specting the effect of Dr. Banning's Lace in the  
case of my wife, I will state that for twenty years  
past, she has been afflicted with a complication of  
complaints to which females are subject. She has  
tried all the physicians and all the medicines re-  
commended for such complaints, without regard to  
expense, and found only temporary relief. Her  
most distressing complaints, palpitation of the  
heart, oppression and a sense of great weight at  
the pit of the stomach, prolapsus of the womb, &c.,  
were believed after wearing the lace two hours, and  
she has continued to improve daily. With this  
view of the case I cannot use language strong  
enough to convey my approval of the instrument.  
aug. 29th

Dr. Boardman, proprietor of Banning's cele-  
brated Patent Body Brace, for this state, has taken  
rooms at No. 8, Broad street, where he may be con-  
sulted, free of charge. He is enabled to treat, suc-  
cessfully, cases of Rheumatism, Neuralgia, Head-  
aches, Deafness, loss of Voice, Bronchitis, Weak-  
ness and curvatures of the spine, and chronic dis-  
eases generally. He is enabled to refer to nume-  
rous cases in Providence, and this town. aug 28

MR. ABRAHAM VANDERBEEK, of 98 A-

was entirely bald on the top, and by the use of  
two 3s. bottles of Jones' Coral Hair Restorative,  
he has a good crop of hair, and will soon have it  
long and thick.

Mr. William Jackson, of 80 Liberty street, Pitts-  
burgh, Pa., certifies: On the 3d of February,  
1847, that Mr. Thomas Jackson's head, on the  
top, was entirely bald for 15 years, and that by  
using two 3s. bottles of Jones' Coral Hair Restor-  
ative, the hair is growing fast and thick, and will  
soon be entirely restored.

Gray Heads! Gray Heads! Read—I hereby  
certify that my hair was turning gray, and that  
since I have used Jones' Coral Hair Restorative,  
it has entirely ceased falling—is growing fast, and  
has a fine dark look. Before I used Jones' Coral  
Hair Restorative, I combed out handfuls of hair  
daily. WM. TOMPKINS, 92 King-st., N. Y.

Mr. Power, a grocer of Fulton-st., had his hair  
checked up with dandruff, and Jones' Hair Restor-  
ative entirely cured it.

Do you want to dress, beautify, and make your  
hair soft and fine? Read—I, Henry E. Cullen,  
late barber on board the steamboat South Ameri-  
ca, do certify that Jones' Coral Hair Restorative  
is the best article I ever used for dressing, softening,  
cleansing and keeping the hair a long time  
in order; all my customers preferred it to any-  
thing else.

TO THE LADIES IN PARTICULAR.  
MY DEPICATORY POWDER has been  
found highly beneficial and of great use to la-  
dies who have been afflicted with superfluous hair,  
principally when its growth has been confined to  
the upper lip and side of the face, giving a unac-  
countable turn to the whole features. When used with  
proper care, and according to the directions, it will  
be found to be a great addition to the toilet, as the  
use of any sharp instrument is entirely avoided,  
and the hair is removed in five or ten minutes af-  
ter its application.

This composition is infallible, and warranted to  
remove superfluous hair. After numerous trials, I  
have received certificates of success which cannot  
be contested. For sale, wholesale and retail, at

MOTHER'S  
RELIEF.

IT is now about ten years since this medicine has  
been introduced to the public, and it stands un-  
rivalled in its effects, bearing the test of the severe  
scrutiny of all classes, both friendly and unfriendly.  
It is but for one purpose—for the use of Mothers  
who have to pass through a sea of affliction in  
giving birth to mankind, not to be described. It  
is to you make an appeal. It is for your es-  
pecial and general good that you should make use  
of one bottle of the MOTHER'S RELIEF before  
confinement. Then you can approach the par-  
turtant chamber without feeling as if you were go-  
ing to the chamber of death. You may rest as-  
sured it will still all fertile and nervous affection.  
It soothes and shields from irritation and by  
its peculiar properties it destroys the cause of her-  
morrhage or inflammation that so often attend and  
follow the hour of parturition. It causes sweet  
and natural rest, and at last facilitates the birth,  
so that Mothers have not to pass through such  
excruciating pain and distress. The Mother's Re-  
lief may be depended upon in all cases of threat-  
ening abortion where it is possible to be prevented  
in cases of Spasms, &c., causing frequent alarm,  
from two to three doses will give immediate relief.

As the subject is one that cannot with propriety  
be fully discussed in this public manner, we invite  
all who feel interested to call on our agents (most  
of the respectable Druggists in the United States,) or  
on the manufacturer, and they will be furnished  
with a pamphlet in which they will find all the  
facts to form a correct opinion of its merits, and  
also the opinions of many physicians of eminence,  
and of persons who have become acquainted with its  
beneficial effects.

CAUTION TO PURCHASERS.—Ask for BATH-  
HOUSE'S Mother's Relief. None is genuine un-  
less our signatures are found within the wreath  
of the direction that is pasted on the bottle, signed  
with our own hand, and over the neck of the  
bottle is a facsimile of our own hand writing also.  
By attending to the above directions, no one need  
be imposed upon. All orders will be promptly  
attended to.

Miracle.  
ON the 4th of August, in the year 1843, a sin-  
gular scene occurred in the Royal Scientific In-  
stitution of France. The aged, white headed  
President, his head bare, his arms outstretched, his  
face radiant with smiles, (for science was triumph-  
ant,) and his voice with gratulatory tone, deliv-  
ered the following report:

"We are astounded at this singular preparation.  
Where indeed will science stop! Here we have  
a preparation made in the form of a beautiful piece  
of soap, which we know by actual practice, to  
cure every cutaneous eruption, every disfigure-  
ment of, and even discolored skin! Where will  
its magic and singular power cease? The Negro,  
the Creole, the Yellow Race of the East, and the  
Red Man of the far West, are alike under the in-  
fluence of its extraordinary powers of clearing yel-  
low or discolored skin, and making it white and  
beautiful, and of changing the color of dark, or  
black, or brown skin." (Here several persons  
were brought forward by the President, who had  
used it, in proof of his assertion.)

There are probably few persons of intelligence,  
who, after reading the above, will doubt the qual-  
ities of JONES' ITALIAN CHEMICAL SOAP,  
in curing Pimples, Blotches, Salt Rheum, Scoury,  
Erysipelas, Sore Throat, Old Sores, Beard and  
Barber's Itch, Chapped and Tender Flesh, Freck-  
les, Tan, Sunburn, and changing dark sunburn or  
yellow skin to a pure, clear white, as smooth and  
soft as an infant's, and in fact every kind of eru-  
ption and disfigurement. Read these certificates:

[From the N. O. Sentinel, Oct., 1844.]  
One of our subscribers, Mr. H. Leonard, in-  
forms us that he has been cured of old, scaly Salt  
Rheum, of eighteen years standing, on his head,  
fingers and hands, by a cake of an article much  
advertised lately—we speak of Jones' Italian  
Chemical Soap. He also informs us that he has  
tried its effects on his female slave, Rose, much  
marked with sun spots, and he found in two  
weeks her skin much clearer and whiter.

James Elkhart, a painter in Jersey City, was  
cured of carbuncles and pimples, which he was  
afflicted with for many years, by part of a cake of  
Jones' Italian Chemical Soap.

Persons in purchasing this must always ask for  
Jones' Italian Chemical Soap; and perhaps, as  
many who have been cheated with counterfeits,  
we say to such, try this once—you will not regret  
it; but always see that the name of T. JONES  
is on the wrapper. For sale in Newport by

chased the recipe. It is certainly worth its weight  
in gold, but is put at a price to be within the reach  
of rich and poor.

Names and residences of persons residing in the  
city of New York, who have benefited or bene-  
fited by Dr. Emanuel's Balsamic Cough and Lung  
Jelly, when it was prepared in another form:

Mr. Hiram Anselmi, 113 William-st., N. Y., had  
for some time, a dreadful pain in his side and chest,  
with a hacking cough, and shortness or difficulty  
of breath. He used part of a bottle of Dr. Emanuel's  
Balsamic Lung and Cough Jelly, which perfectly  
cured him.

Mrs. Morgan, Front-st., Brooklyn, had a very  
obstinate cough and cold. She tried every other  
remedy in vain, and Dr. Emanuel's Balsamic  
Lung and Cough Jelly entirely cured her.

Reader, reader, let the glad voices and grateful  
hearts of these respectable citizens of New York,  
appeal to your hearts and understandings, if you  
are afflicted with any pulmonary complaint,  
cough, cold, &c.

Mr. L. W. Conklin, 102 Eldridge-st.  
Mr. Alonzo Brown, 72 Reade-st.  
Mrs. Morgan, 162 Front-st., Brooklyn.  
Orange county, April 19th, 1846,

Dr. EMANUEL,  
Dear Sir—You may perhaps think my state-  
ment almost incredible. My reason for fearing  
so is the fact of your never recommending your  
Jelly for the cure of confirmed consumption, but  
only in its primary or first stages. I have every  
reason to believe that I was in its last stage; my  
physician told me so; my friends told me so; as  
well did my symptoms, for they were truly alarm-  
ing, and I felt fully convinced, that unless relief  
was obtained, I must soon be consigned to the  
narrow confines of the silent grave. But by the  
timely use of your remedy, I still live, and again  
enjoy my former good health. I had, indeed, dear  
sir, all the alarming symptoms you speak of as  
forming consumption in its worst stage; but by  
the use of your Jelly, I again say, I am cured.

Yours, dear sir, with great sincerity,  
ISAAC J. BEED.

And now, reader, having given you a plain  
statement, let me conjure you to pause, ere it is too  
late; try this Balsamic Lung Jelly—try it. I have  
put its price to you as low as I can afford; if you  
use it, and succeed in curing yourself, I shall have  
the gratification of having rescued another from  
consumption; and I hope, in return, that you will  
not withhold from me your name, and a statement  
of your cure.

MY EAU LUSTRAL HAIR RESTORATIVE  
This universally approved and admired article,  
free from ardent spirits, pungent essential oil, and  
other destructive materials, cleans the hair ex-  
pediently, renders it beautifully bright, and imparts  
to it the delicate fragrance of the flowers. Hair  
washed with this Extract soon becomes pleasingly  
soft and luxuriant in its growth, and it will pos-  
sibly bring in new hair on bald heads by its use;  
and hair that has been made harsh, and is turning  
gray or falling out, by the use of spirit or other im-  
proper preparations, will soon be restored to its  
natural color and brilliancy, by a few applications  
of the Eau Lustral.

It is a preservative against baldness, and an  
infallible cure in all affections of the skin on the  
head, as dandruff, and for preventing the falling  
out of the hair and turning gray.

Evidence.—Nature is an inexhaustible mine, in  
which experience and study will always find room  
to excavate; it is that source alone which pro-  
duces all that man calls invention, and which he  
would do better, perhaps, to name adaptation.

Coggeshall & Bliss' Patent Cook-  
ing Range.

THE subscribers have just taken out letters pa-  
tent for a new and beautiful cooking Range,  
to which they invite the attention of the public.

This Range may be used in the ordinary fire place  
and by a simple, though effectual apparatus, the  
throat of the chimney may in an instant of time,  
be opened or closed, so that the heat in summer and  
the fumes from cooking at all times may escape  
through the chimney.

Wood or coal may be used, and the evil of smok-  
ing chimneys is completely remedied by its in-  
troduction.

This Range is so constructed that it takes up but  
a small space, and yet it contains all the qualities  
of those which take up double the amount; and it  
being constructed as it is, the Boilers are brought  
in close proximity with the fire, and it consequen-  
tly boils much sooner, and with a smaller amount  
of fuel, than the old fashioned Ranges, or cook  
stoves. It contains five boilers, four of which may  
be converted into two, by taking out a cross piece,  
and thus will admit of two large boilers at the  
same time. It also contains and Over 12 inches  
wide by 21 deep, which cannot be surpassed for  
baking.

The subscribers have one of their Ranges in op-  
eration at their store, where the public are invited  
to call and examine it, and if they will, they must  
at once discover its utility. They also keep con-  
stantly on hand all kinds of Frying, Office, and
